Description

The approximate fiat amount under the DASH amount in Your Balance field is not correct. We can see that the exchange rate at the given moment is 71.07USD/DASH

Test Steps:

1. Open the "Account" Tab on SpectroCoin website
2. Click on the "Wallets" tab
3. Choose "Dash" wallet

Actual result: The approximate fiat amount under the DASH amount in Your Balance field is not correct

The screenshot shows the SpectroCoin website interface. On the left, a sidebar lists various cryptocurrencies and their current fiat values: Bitcoin (11425.03 USD), Ether (382.68 USD), and Dash (71.07 USD). The main content area is titled '(DASH)' and shows the 'Your Balance' as 0.46181058 DASH. Below this, the 'Operations' section includes buttons for Send, Receive, and Buy/Sell. A red arrow points to the 'Your Balance' section, specifically to the incorrect USD value of ~143.89. Below the balance, the 'Your latest transactions' table is visible, showing a list of transactions with columns for ID, Status, Amount, and Date.

Expected result: The amount of "Your Balance" in USD should be ~32.82\$ based on the given USD/DASH exchange rate

Test environment:

OS: Windows 10. Chrome Version 105.0.5195.127 (Official Build) (64-bit).
